Integrated Drive Systems offers the oilfield's most compact AC VFD drive system, allowing a 4x7 VFD system (with 12 MCC) to fit into a single, 42' house (on 55' skid)! And IDS provides the training and technical support necessary to assure successful startup and reliable operation.

IDS systems conform to industry standards and are built to provide the finest control yet withstand the rigors of the oilfield environment. Quality IDS Power Control Houses are the result of decades of drives service and systems experience. Invite IDS to provide your next AC VFD power control system.

Typical, 4 x 5 VFD house shown for illustration purposes. Skid extension with porch not shown.

IDS Model	Rated HP	Config.	MP Drives	MCC
ACU1035	1000 hp	3 x 5	(2) 1000	9
ACU1235	1200 hp	3 x 5	(2) 1300	10
ACU1636	1600 hp	3 x 6	(2) 1600	12
ACU2047	2000 hp	4 x 7	(3) 1600	13
ACU3047	3000 hp	4 x 7	(3) 1600	14

All systems include DW & MP drives, 1200hp RT drive, 1200hp TD drive and driller's console. Autodriller, driller's cabin and other features are optional.
